

Testimony of Ray DeBord

This is a letter of a healing testimony from Ray DeBord. I had a bad pain in my back under my left shoulder. It was getting to the point that I was afraid it might also be my heart. I was in one of the morning services, when a person gave the word of knowledge for someone with a hurting less shoulder. I knew it was me and I thought I would just believe that the Lord would heal me by just agreeing and did not go down for prayer. This pain had been going on about six weeks and it got worse after that. During this time I became very worried about the fact it could be my heart, so I set up an appointment to get a body screening. During that same week, Jamie, our song leader at wellspring called me and said he had a bad dream about me and was very concerned for my health. We prayed. And the next day I went in for the screening. And during the next week, we had a meeting over setting up our healing ministers. I already made up my mind if someone ever gave a word on the pain I was living with an affecting my work at school, I would allow that person to lay hands on me and pray for my healing. Toward the end of the meeting Michael Miller said, if anyone needed prayer for healing in the shoulder or back to come up and I did. I was not healed right then, but I was working the next day and realized I was not in pain. And the pain has not come back. I know that our healing comes from our Lord and Savior Jesus Christ, but I do believe in my case I had to demonstrate that faith, by coming forward for prayer and laying on of hands.
