

High School Mission Trip - December 2008

Submitted by Katie Campbell

One of the days of the VBS, at the end of the lesson, Pastor Dawn asked the kids if they had any health-related things they wanted prayer for, if you kid stood up, so our group started to pray for them. I had prayed for one or two kids and they and the rest of the kids started to go to their next activity. When I saw a couple people still praying, I went over and Shannon told me the little bully we were praying for's hand was crippled into a fist since birth. I think the mother later said it was from meningitis. So I started to pray for him. After five or six minutes of praying we checked on his hand and he started to move a couple of fingers a little. We started to pray some more and he was able to move his fingers even more. We pray for about half an hour, I think, and by the end he could flatten out his hand. He was opening and closing his hand like normal. It was the most amazing thing I've ever seen. We do have video of him and his mother telling us how his hand was before it was healed.
