

March 12, 2009 testimony submitted by Taylor White

High School Mission Trip - December 2008

At a church in Piedras Negras, Mexico, all of the wellspring youth who were there went up to the front to pray for people. We prayed for a lady's gastritis to be healed and then for her vision. The light had previously hurt her eyes and after we prayed for her the light didn't hurt her eyes and she could tell a difference.

We also prayed for a man who had carpal tunnel syndrome and head pain when he moved his thumb. He was immediately healed and he was moving the thumb around and smiling and laughing.
