

Prophetic Word Testimony – Wellspring Church 3/15/09 10am Service

This particular Sunday, I was running late due to having a series of migraines. The migraine had lifted enough that I was able to see clear enough and function enough to make the drive and attend services. I walked into the sanctuary and stood in the back for a few moments to look for a seat as the Prophetic ministry from the platform had already begun. I found a seat and sat down. About 5 minutes later Ashley pointed me out and asked me my name. As I replied, she slightly chuckled and stated “that’s kinda weird.”... her meaning in that was this...

My name is Rainbow; God chosen, Parent given. When Ashley saw me, and as the Lord highlighted me to her, she was hearing the song, “Over the Rainbow”. You can’t get much clearer than that! She then began to share that the Lord was giving me new vision for my life and that she was hearing/seeing a scene from The Wizard of Oz of Dorothy and the others walking in their adventure. I want to interject here to state, I am in a season of the Lord giving me new vision that I am so desperately seeking, and The Wizard of Oz movie is very special to me and is a strong spiritual parallel of significance that relates to some early times of new vision early on in my years of spiritual development.

Ashley then began to state that I had been struggling with vision related issues and having trouble “seeing” straight, possibly in the natural as in the spiritual. This was/is profoundly true. About 8 months ago, I was diagnosed with Vertigo. Vertigo is an inner ear issue that strongly affects your equilibrium and vision. And the migraines that had come on me that weekend had left me in a state of not being able to see clearly or “focus” on any one thing for any period of time.

She then stated that God was healing and restoring some different types of things. This has and is in process... in the natural and in the spiritual. Since this Sunday, I have had to resort to going to a Chiropractor and getting treatment for “mis-alignment” and treatment for things that have gone for years un-treated. This process of “healing” and “alignment” are not only correcting and bringing physical restoration, but it also has brought healing to the issues I was having with my vision and equilibrium balance. (Natural and Spiritual)

Though this word may seem “silly” or not as significant as others, for me, this was a very accurate word in due season and had the signature of God on it to send a special note from Him to me with the reference to the song and the movie.

Sincerely,

Rainbow Cowan
