

My name is Paul Hart. On July 20, 2008 Michael Roundtree called me out with a "Word of Knowledge". He asked me if I had any lower back pain. I hesitated momentarily and then said "just a little". The reason I hesitated was because I had a motorcycle accident 25 years earlier where I landed hard and compressed two vertebrae. It had never ever slowed me down, as I have always been very active. Even at age 50 I play soccer two or three times weekly. The best way to describe how my back felt for the last 25 years was that it often felt "strained" or tense. So when I indicated yes I had some slight back pain, Michael said, "I think God wants to heal that."

I said okay, and went up to the healing line after service. Michael Rooney prayed for me. As soon as he placed his hand on my lower back I immediately felt a small amount of heat. I told him so. And I was healed instantly. From that moment until now my back has been totally pain-free in situations where previously it would slightly hurt or feel strained. My back continues to be strained and pain-free.

I thank God for His healing ministry, and the increase in faith it gave me. This has led God using me on his healing team now. Is He amazing or what!
