

Testimony of Tim Rusk

During the summer of 2007 and was experiencing pain in my right thumb and two fingers. The pain felt like electricity running through them and would last about 10 to 20 seconds. At first and only happen once a day. Then it was during several times a day and the pain was progressively getting more intense. I asked the healing team to pray for me after church that summer. I felt nothing unusual during the prayer. I did not know that I was healed until a day went by and I had no pain. It is been almost 2 years and I have never experienced another episode of pain.
