

Hi Paul, Ref: December 6, 2009

Sorry for get back to you so late.

Praise the Lord. I did get healed the same day after 3 groups of People prayed for me.

It was 2 weeks before Dec. 6, 2009, Stefanie Robinson, my co-worker, said that God want me to go to your church with her on Dec. 6, and I did follow her advice. After sermon, a young man (Michael Miller) announced God is going to heal any one who has pain on arched sole, immediately I thought about my foot. My left foot has been in pain for many years, although it's painful I already get used to it. That's why I barely complain or mention about it.

When Michael and his friend prayed for me I already sensed the healing power going through me and I was excited. We went back to work right after the service. Amazingly I didn't feel any pain on my foot the whole afternoon, plus I even had a pair of high heel shoes on. God is so wonderful, over the year I have been prayed for many things but never prayed for my own foot. God really care about "ALL" our need even the one we did not realize or prayed for.

I praise Lord and give thanks to Lord for His love and mercy is forever.

In Christ

Sue
