

Diana, transcribed by Paul Hart Oct 15 2009 9:24am

Michael Miller was having a "Healing Class" before service on October 4, 2009. After Michael's presentation and scripture references he asked for some people to come forward who needed prayer for healing. I had been having nasal congestion and pressure. I put my hands on my face where the pressure was and Michael laid his hands on mine and prayed for me and the pressure went away and has never returned. I also had a Cold and it went away faster than usual.

Second Testimony

In mid April 2009 Jeff Symons prayed for my back. I had fallen down stairs in January 2000; then one month later had a rear end collision. This resulted in bouts of intense back pain and spine misalignment. While under the care of chiropractors for 1 year, I experience no real results, I left in frustration. In 2003, my primary care physician referred me to a doctor of "manipulation". With this doctor I would experience temporary relief for 2 to 3 weeks at a time. Although I experience a noticeable relief of pain, exercising was difficult and frustrating because this activity would quickly cause pain and discomfort to return.

After three years I begin seeking God for a permanent healing. I long to be rid of this illegal chronic condition, that was a nuisance to my life. I had received prayer for this condition on several occasions, but only received some measure of healing. This spring while visiting Wellspring, I went up for prayer. I said to myself, "My healing has to happen". Jeff prayed for me and this time I feel about 90% better. I am walking for exercise a few times a week. Not only is there a significant decrease in pain; the fear of pain is gone.

Thank You, Jesus.
